EMPLOYEE INFORMED CONSENT FOR IMMUNIZATION WITH HEPATITIS B VACCINE

Each year 300,000 people in the United States develop infection due to Hepatitis B virus. This is the result of exposure to infected body fluids, such as blood. Health care employees can be exposed to this virus in their every day working environment. A vaccine is available to prevent Hepatitis B infection in people exposed to this virus. This vaccine will not prevent hepatitis caused by other agents such as hepatitis A virus, non-A, non-B hepatitis viruses, etc.

Hepatitis B infection of the liver may be a very mild illness or a life threatening one. Of the approximately 300,000 new cases of Hepatitis B virus infections occurring annually in the United States: 26% will develop jaundice and 74% will remain sub-clinic: (non-specific symptoms such as fatigue, muscle and joint pains, loss of appetite); 5.2% will become hospitalized; % will die of acute Hepatitis; 2% will die of cirrhosis, and% will die of hepatocellular carcinoma. Six to ten percent of those who are infected annually (amounting to 18,000 to 30,000 people per year) will become chronic carries of the disease.

Hepatitis B vaccine is a non-infectious sub-unit viral vaccine derived from Hepatitis B surface antigens produced in yeast cells. It is usually delivered in three doses via intra-muscular injection. The first dose of 1.0 ml is followed by booster doses at one and six months. Eighty-five to ninety-six percent of the individuals receiving the complete series of vaccinations are protected from Hepatitis B infections to which they may be subsequently exposed. The long-term duration of this protection against illness and subsequent carriage of the virus, and the need for further boosters is not known at the present time.

A review of medical literature about the side effects of the vaccine has been made. As with any vaccine, there is a possibility that broad public use of the vaccine may reveal rare adverse reactions which were not observed during the clinical trial. The most common adverse reactions from Hepatitis B vaccine is local soreness at the injection site, which subsides within 48 hours. Vaccinated people may experience low grade fever, fatigue, headache, nausea, vomiting, dizziness, and muscular or joint pain. There reactions are short – lived. Disorders of the nervous system, such as abnormal sensations like burning, prickling and shooting pains in the arms and legs, as well as paralysis as in the Guillian-Barre Syndrome, have been rarely reported following the administration of several commonly used vaccines including Hepatitis B vaccine. At this point in time, there is no known cause and effect relationship between these nervous system disorders and the administration of Hepatitis B vaccine.

More detail about the disease and the vaccine including further explanation of this consent form is available from staff development or the infection control nurse. Questions regarding pregnancy and the vaccine should be discussed with your obstetrician.

Instructions for Completing Form WH-4

This form should be completed by all resident and nonresident employees having income subject to Indiana state and/or county income tax.

Print or type your full name, Social Security number or ITIN and home address. Enter your Indiana county of residence and county of principal employment as of January 1 of the current year. If you neither lived nor worked in Indiana on January 1 of the current year, enter 'not applicable' on the line(s). If you move to (or work in) another county after January 1, your county status will not change until the next calendar tax year.

Nonresident alien limitation. A nonresident alien is allowed to claim only one exemption for withholding tax purposes. If you are a nonresident alien, enter "1" on line 1, then skip to line 7. You are considered to be a nonresident alien if you are not a citizen of the United States and do not meet the green card test and the substantial presence test (get Publication 519 from www.irs.gov for information about these tests).

All other employees should complete lines 1 through 7.

Lines 1 & 2 - You are allowed to claim one exemption for yourself and one for your spouse (if he/she does not claim the exemption for him/herself). If a parent or legal guardian claims you on their federal tax return, you may still claim an exemption for yourself for Indiana purposes. You cannot claim more than the correct number of exemptions; however, you are permitted to claim a lesser number of exemptions if you wish additional withholding to be deducted.

Line 3 - Dependent Exemptions: You are allowed one exemption for each of your dependents based on state guidelines. To qualify as your dependent, a person must receive more than one-half of his/her support from you for the tax year and must have less than \$4,300 gross income during the tax year (unless the person is your child and is under age 19 or under age 24 and a full-time student at least during 5 months of the tax year at a qualified educational institution).

Line 4 - Additional Exemptions. You are also allowed one exemption each for you and/or your spouse if either is 65 or older and/or blind.

Line 5 - Add the total of exemptions claimed on lines 1, 2, 3, and 4. Enter the total in the box provided.

Line 6 - Additional Dependent Exemptions. An additional exemption is allowed for certain dependent children that are included on line 3. The dependent child must be a son, stepson, daughter, stepdaughter, foster child, and/or child for whom you are a legal guardian.

Lines 7 & 8 - If you would like an additional amount to be withheld from your wages each pay period, enter the amount on the line provided. **NOTE:** An entry on this line does not obligate your employer to withhold the amount. You are still liable for any additional taxes due at the end of the tax year. If the employer does withhold the additional amount, it should be submitted along with the regular state and county tax withholding.

You may file a new Form WH-4 at any time if the number of exemptions **increases**. You must file a new Form WH-4 within 10 days if the number of exemptions previously claimed by you **decreases** for any of the following reasons:

(a) you divorce (or are legally separated from) your spouse for whom you have been claiming an exemption or your spouse claims him/herself on a separate Form WH-4; or (b) someone else takes over the support of a dependent you claim or you no longer provide more than one-half of the person's support for the tax year.

Penalties are imposed for willingly supplying false information or information which would reduce the withholding exemption.

Future Developments

For the latest information about developments related to Form W-4, such as legislation enacted after it was published, go to *www.irs.gov/FormW4*.

Purpose of Form

Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. If too little is withheld, you will generally owe tax when you file your tax return and may owe a penalty. If too much is withheld, you will generally be due a refund. Complete a new Form W-4 when changes to your personal or financial situation would change the entries on the form. For more information on withholding and when you must furnish a new Form W-4, see Pub. 505, Tax Withholding and Estimated Tax.

Exemption from withholding. You may claim exemption from withholding for 2025 if you meet both of the following conditions: you had no federal income tax liability in 2024 and you expect to have no federal income tax liability in 2025. You had no federal income tax liability in 2024 if (1) your total tax on line 24 on your 2024 Form 1040 or 1040-SR is zero (or less than the sum of lines 27, 28, and 29), or (2) you were not required to file a return because your income was below the filing threshold for your correct filing status. If you claim exemption, you will have no income tax withheld from your paycheck and may owe taxes and penalties when you file your 2025 tax return. To claim exemption from withholding, certify that you meet both of the conditions above by writing "Exempt" on Form W-4 in the space below Step 4(c). Then, complete Steps 1(a), 1(b), and 5. Do not complete any other steps. You will need to submit a new Form W-4 by February 17, 2026.

Your privacy. Steps 2(c) and 4(a) ask for information regarding income you received from sources other than the job associated with this Form W-4. If you have concerns with providing the information asked for in Step 2(c), you may choose Step 2(b) as an alternative; if you have concerns with providing the information asked for in Step 4(a), you may enter an additional amount you want withheld per pay period in Step 4(c) as an alternative.

When to use the estimator. Consider using the estimator at *www.irs.gov/W4App* if you:

1. Are submitting this form after the beginning of the year;

2. Expect to work only part of the year;

3. Have changes during the year in your marital status, number of jobs for you (and/or your spouse if married filing jointly), or number of dependents, or changes in your deductions or credits;

4. Receive dividends, capital gains, social security, bonuses, or business income, or are subject to the Additional Medicare Tax or Net Investment Income Tax; or

5. Prefer the most accurate withholding for multiple job situations.

TIP: Have your most recent pay stub(s) from this year available when using the estimator to account for federal income tax that has already been withheld this year. At the beginning of next year, use the estimator again to recheck your withholding.

Self-employment. Generally, you will owe both income and self-employment taxes on any self-employment income you receive separate from the wages you receive as an employee. If you want to pay these taxes through withholding from your wages, use the estimator at *www.irs.gov/W4App* to figure the amount to have withheld.

Nonresident alien. If you're a nonresident alien, see Notice 1392, Supplemental Form W-4 Instructions for Nonresident Aliens, before completing this form.

Specific Instructions

Step 1(c). Check your anticipated filing status. This will determine the standard deduction and tax rates used to compute your withholding.

Step 2. Use this step if you (1) have more than one job at the same time, or (2) are married filing jointly and you and your spouse both work. Submit a separate Form W-4 for each job.

Option (a) most accurately calculates the additional tax you need to have withheld, while option (b) does so with a little less accuracy.

Instead, if you (and your spouse) have a total of only two jobs, you may check the box in option **(c)**. The box must also be checked on the Form W-4 for the other job. If the box is checked, the standard deduction and tax brackets will be cut in half for each job to calculate withholding. This option is accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld, and this extra amount will be larger the greater the difference in pay is between the two jobs.

Multiple jobs. Complete Steps 3 through 4(b) on only one Form W-4. Withholding will be most accurate if you do this on the Form W-4 for the highest paying job.

Step 3. This step provides instructions for determining the amount of the child tax credit and the credit for other dependents that you may be able to claim when you file your tax return. To qualify for the child tax credit, the child must be under age 17 as of December 31, must be your dependent who generally lives with you for more than half the year, and must have the required social security number. You may be able to claim a credit for other dependents for whom a child tax credit can't be claimed, such as an older child or a qualifying relative. For additional eligibility requirements for these credits, see Pub. 501, Dependents, Standard Deduction, and Filing Information. You can also include other tax credits for which you are eligible in this step, such as the foreign tax credit and the education tax credits. To do so, add an estimate of the amount for the year to your credits for dependents and enter the total amount in Step 3. Including these credits will increase your paycheck and reduce the amount of any refund you may receive when you file your tax return.

Step 4 (optional).

Step 4(a). Enter in this step the total of your other estimated income for the year, if any. You shouldn't include income from any jobs or self-employment. If you complete Step 4(a), you likely won't have to make estimated tax payments for that income. If you prefer to pay estimated tax rather than having tax on other income withheld from your paycheck, see Form 1040-ES, Estimated Tax for Individuals.

Step 4(b). Enter in this step the amount from the Deductions Worksheet, line 5, if you expect to claim deductions other than the basic standard deduction on your 2025 tax return and want to reduce your withholding to account for these deductions. This includes both itemized deductions and other deductions such as for student loan interest and IRAs.

Step 4(c). Enter in this step any additional tax you want withheld from your pay **each pay period**, including any amounts from the Multiple Jobs Worksheet, line 4. Entering an amount here will reduce your paycheck and will either increase your refund or reduce any amount of tax that you owe.

Step 2(b) - Multiple Jobs Worksheet (Keep for your records.)

If you choose the option in Step 2(b) on Form W-4, complete this worksheet (which calculates the total extra tax for all jobs) on **only ONE** Form W-4. Withholding will be most accurate if you complete the worksheet and enter the result on the Form W-4 for the highest paying job. To be accurate, submit a new Form W-4 for all other jobs if you have not updated your withholding since 2019.

Note: If more than one job has annual wages of more than \$120,000 or there are more than three jobs, see Pub. 505 for additional tables; or, you can use the online withholding estimator at *www.irs.gov/W4App*.
